

Music Manager

The Music Manager is a premium background music service available on itbox, giving you control over the music that plays in your venue.

With a selection of over 2 million tracks, you can build and edit play lists choosing the mood for your venue for each day and time of the week. The system comes with a set of default schedules maintained and managed by Inspired. These are packed with the latest chart music and popular tracks - ensuring your music is always up-to-date.

Use the simple, touch screen interface through your itbox to select and download unlimited number of tracks to build and edit your own play lists. Combine these with the host of premium play lists provided to build up the ultimate weekly schedule of music.

The system also has a facility which allows you to create scheduled music for special occasions. Create an evening of romantic music for Valentines Day, a Christmas party or even a friend's birthday - the possibilities are endless. You can set the schedule to run at a certain time and then forget about it - knowing it will commence on the time and date you have chosen.

Get your order in today and enjoy the greatest selection of music cost effectively.

Enter the Music Manager through the main menu

Create and customise your own play lists using the 2 million track database or utilise and edit the premium play lists supplied
